Re: Beth Morris

To Whom It May Concern:

In the spring of 2006, I took Beth's Introduction and Intermediate HTML classes at Western Connecticut State University. I found that Beth was extremely knowledgeable and passionate about the subjects she teaches. She is very friendly and was always willing to go the extra mile to help her students. Beth communicates effectively about a wide range of subjects in technology, such as Linux, Flash, and various programming languages including PHP, Perl, Java, and VB/ASP. Her classes provided me with the tools that I needed in order to maintain and create web pages for my company.

I hope to take classes with Beth again in the future. If you have any questions, please feel free to contact me. Below is a list of web pages, which I created and maintain since taking Beth's HTML classes.
